Philosophy

The Deglobalization New Paradigm StrategySM seeks to capitalize on opportunities arising from the rapid changes in the economic landscape which have been accelerated by the COVID pandemic. The focus is on companies which will see accelerating growth from changes in the next generation worldwide supply chain towards a more regionalized, redundant, and reliable model centered in the U.S. The style additionally invests in beneficiaries of lasting changes in consumer and business demand.

Process

The process is a collaboration amongst the firm's Small Cap Growth, Small Cap Value and Large Cap Growth styles. It draws from each investment teams' differentiated approach to fundamental research, offering a continuous and complementary view of the market. The Deglobalization New Paradigm StrategySM is focused on identifying beneficiaries of the thematic mandate that also offer durable and attractive fundamental characteristics. Consistent with the mandate, the investment team incorporates ESG factors into its portfolio vetting and decision-making process.

The Deglobalization New Paradigm StrategySM is compared to the Russell 3000® Index. The benchmark is most reflective of the objectives and holdings of the style. The composite includes all fully discretionary portfolios invested in Peregrine's Deglobalization New Paradigm StrategySM. Net performance includes the effect of advisory or performance fees, while gross performance does not. Both gross and net performance reflect the reinvestment of dividends and interest, and the deduction of brokerage or other commissions, and any other expenses that a client would have paid or actually paid, other than custodial fees. Past performance is no guarantee of future results. As with any investment there is always potential for gains as well as the possibility of losses.
